

Diaper Wipe Lid Sensory Board

What You Need:

- Diaper Wipe Dispenser Lids
- Materials of Different Textures and Colors
- Poster Board
- Glue

What To Do:

- Glue different types of materials to the back of the diaper wipe lids.
- Glue the diaper wipe lids with the material to the poster board.
- When dry your child can lift the lids and feel the different types of materials.

Words to Use:

Soft Rough Smooth Bumpy Colors Feel
Touch Open Close

What I Learn:

- Fine Motor Development by manipulating the lids
- Language Development while talking about the feel
- Cause and Effect: If I push this the lid will open
- Problem Solving: How can I get this lid open?
