

**Holmes High School**

**SBDM Council Policy**

**Performance Based Credits  
HHS Best Practice Policy**

Performance Based Credits are an opportunity for those students who participate in an extra-curricular activity outside of the school day to receive a full credit in Physical Education, if they have not earned one as of yet, or a regular Physical Education/Lifetime Wellness credit through their participation in an extra-curricular activity.

The credit will be posted to the student's transcript at the conclusion of the semester or school year, if they have completed all necessary guidelines, most importantly the 120 hours of Practice/Competition.

In order for a student to satisfy these requirements, they must complete the season in its entirety.
